Assistive Technology Minor
2023-2024 Curriculum Chart

*This minor cannot be combined with the Assistive Tech concentration of the former Bioengineering major or the Robotics Engineering BS*

*ECE 121, ECE 141, and ECE 167 cannot also be used to satisfy Electrical Engineering B.S. electives*

Mathematics & Statistics

- **MATH 19A**
  - Calculus

- **MATH 19B**
  - Calculus

- **AM 10**
  - Math Methods for Engineers I

- **MATH 21**
  - Linear Algebra

- **AM 20**
  - Math Methods for Engineers II

- **MATH 24**
  - Ordinary Differential Equations

Computer Engineering

- **CSE 12** (7 units)
  - Computer Systems & Assembly Language/Lab
  [Prerequisite(s): CSE 20, or CSE 30, or BME 160, or equivalent]

- **ECE 13** (7 units)
  - Computer Systems & C Programming

- **CSE 100/L**
  - Logic Design/Lab

- **ECE 100/L**
  - Intro to Electronic Circuits/Lab

Science

- **PHYS 5A/L**
  - Intro to Physics I/Lab

- **PHYS 5C/N**
  - Intro to Physics III/Lab

- **CHEM 1A**
  - General Chemistry

- **BIOL 20A**
  - Cell & Molecular Biology

- **BIOE 20B**
  - Development & Physiology

- **METX 135/L**
  - Functional Anatomy/Lab

Electronics

- **ECE 101/L**
  - Intro to Electronic Circuits/Lab

- **ECE 118** (10 units)
  - Mechatronics

- **ECE 103**
  - Signals & Systems

- **ECE 167** (7 units)
  - Sensing & Sensor Technologies

- **ECE 121** (7 units)
  - Microcontroller System Design

- **ECE 141**
  - Feedback Control Systems

* Additional pre-requisites required
## Assistive Technology Minor

### 2022-2023 Curriculum Chart

*This major cannot be combined with the Assistive Tech concentration of the former Bioengineering major or the Robotics Engineering BS*

*ECE 121, ECE 141, and ECE 167 cannot also be used to satisfy Electrical Engineering B.S. electives*

The assistive technology minor is designed for students interested in helping people with movement disabilities. The emphasis is on designing exoskeletons and robots built on two core cross-disciplinary courses: Mechatronics(ECE 118) and Functional Anatomy (METX 135/L).

The minor requirements may satisfy the requirements of other majors or minors under the campus policy discussed under Major and Minor requirements. Because of the large number of courses required, it is most suitable for students in majors already requiring a substantial number of these courses. The minor cannot be combined with the Assistive Technology: Motor concentration of the former bioengineering major or the Robotics Engineering B.S. major. ECE 121, ECE 141, and ECE 167 cannot also be used to satisfy electrical engineering B.S. electives.
