

Global Sales Training

Cisco Global Sales Internship Program

Exceptional Experience

This is a summer internship opportunity for university students in the US, Canada and select countries in APJ and EMEAR. The program is for candidates that are interested in gaining technical and/or sales experience. During this internship, you will learn about Cisco technology solutions, be exposed to Cisco field teams throughout the globe, and will be involved in completing account research and insights for Cisco customers. Upon successful completion of this program, interested interns are encouraged to apply for the Cisco Sales Associates Program the following summer.

“My summer as a Global Sales Intern transformed the way I view business outcomes and customer needs. The dedication from leadership to help find my interests and how to apply my skills during this program has given me the confidence and experience to advance my career.”

The Cisco Difference

As the worldwide leader in networking, we are transforming how people connect, communicate, and collaborate. We are looking for interns with, and without, a technical background who can help our customers transform their business and solve their most pressing business issues. Ideal candidates are self-motivated, achievement oriented, have strong interpersonal skills, enjoy building relationships with customers and partners, and are passionate about leading-edge technology.

Our interns are from different countries, backgrounds, genders, ethnicities, and abilities. But what makes Cisco unique is the inclusive way in which we come together to collaborate and find new solutions.

Do you want to **connect** the **unconnected?**

The Sales Experience

Gain Experience: You will receive in-depth training on Cisco products and services while also developing professionally through executive exposure and mentorship opportunities

Customer Insights: Collaborate with peers and sales coaches to uncover transformational opportunities that will address Account Team's top strategic initiatives across different industries and vertical markets

The Engineering Experience

Gain Experience: You will receive in-depth training on Cisco products and services while also developing professionally through executive exposure and mentorship opportunities

Customer Insights: Collaborate with peers and sales coaches to uncover transformational opportunities that will address Account Team's top strategic initiatives across different industries and vertical markets

Technology Focus: Gain insight into Cisco's architectures from distinguished Sales Engineers while participating in cutting edge projects including Cloud demonstrations and Hackathons. This track will provide opportunities to explore data center, digitization, security and beyond
